

**The MPS Team**  
From solutions to software

## The MPS Team is here to support your business

During these unprecedented times, The MPS Team will continue to support our employees and our customers. Our employees are safely working from home, and we have the infrastructure and logistics in place to assist your business. It may not be business as usual as companies navigate through much uncertainty, but The MPS Team are available to provide any advice about the solutions and products we provide.

# Temperature Measurement Kiosks with Facial Recognition

## Non-contact kiosks automatically read body temperature in seconds, with optional facial recognition.

These kiosks are invaluable to help prevent the spread of viruses and maintain a healthy environment for your employees, visitors and the general public.

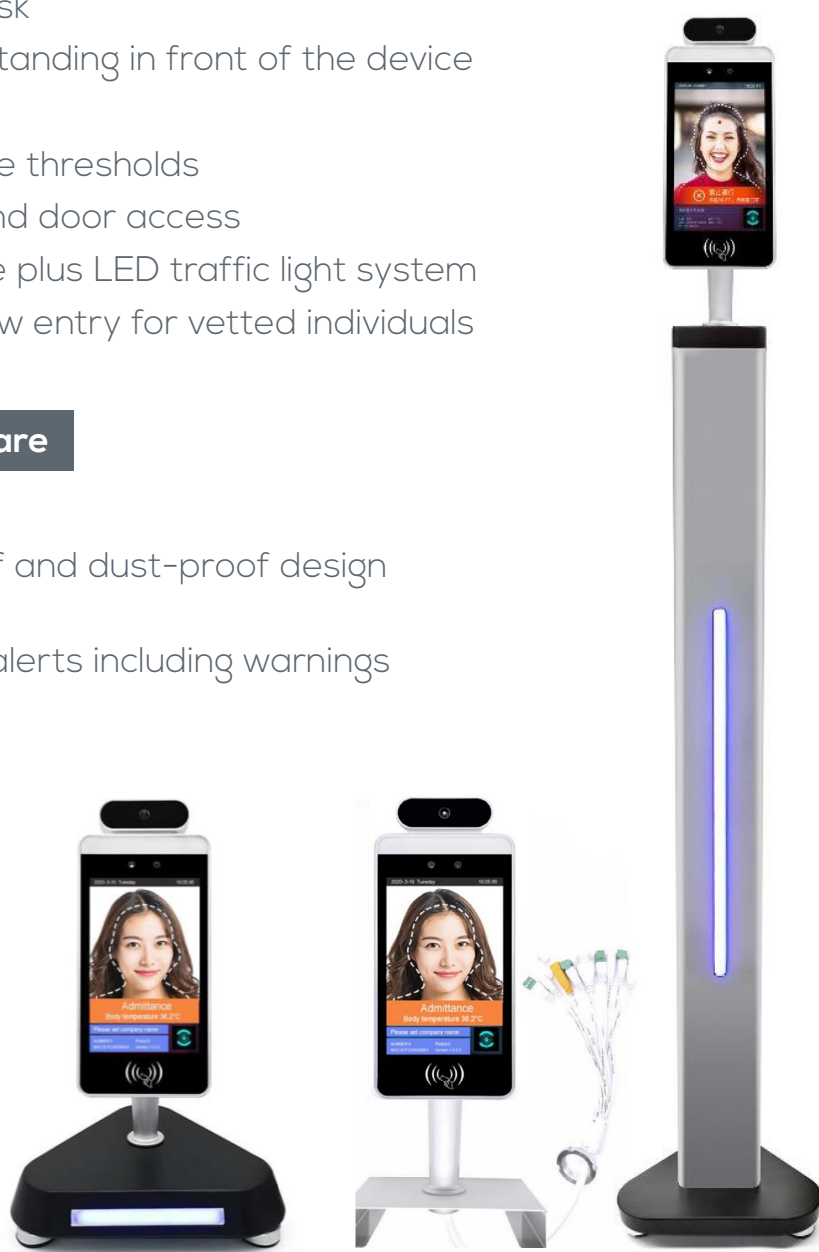

- Non-contact, fully automated kiosk
- Detects temperature of a user standing in front of the device
- Reads temperature in 1 second
- Set your acceptable temperature thresholds
- Integrate with gates, turnstiles and door access
- Verbal warning/success message plus LED traffic light system
- Optional facial recognition to allow entry for vetted individuals

### Durable, commercial-grade hardware

- 8-inch IPS full-view LCD
- Commercial-grade, a waterproof and dust-proof design which is stable and durable
- Built-in speakers provide verbal alerts including warnings for abnormal temperatures
- Supports various peripheral expansions such as ID card reader, fingerprint reader, IC card reader, two-dimensional code reader etc.

### Mounting Options

- Surface/Desk Mount
- Turnstile Integration
- Wall Mount
